Kamil's Smart Energy Analysis Dashboard
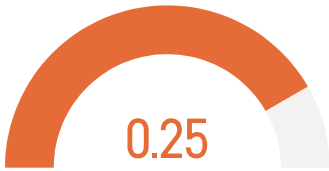

Operation time (min's)

59

Energy consumed by one bulb (kWh)

0.1

**Energy consumed by two bulbs (kWh)**

0.25

**One bulb usage Cost (Inr)**

0.2

Two bulb's usage cost (Inr)

0.5

The current drawn by two bulbs is higher than single bulb

One Bulb Load Two Bulb Load

Power used by two bulbs is higher than single bulb

Load Level One Bulb Load Two Bulb Load

Energy consumed by two bulbs is higher than single bulb
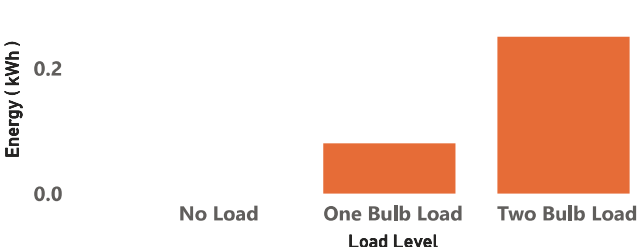

The energy consumption increased with an increase in time (Single bulb)
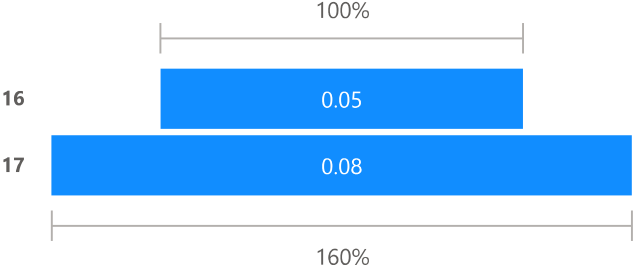

The energy consumption increased with an increase in time (Two bulb)

Increase Decrease Total

Energy Consumption increased with increase in load
